## THE RAYMOND LION

One of the most enjoyable social events of the winter is that one called Leo's-Nite-Out. This is a very special affair in the Lions' projects every year. For the last few years in Raymond this has taken the form of our big Square Dance and Hotcake Feed.

On March 29th the Raymond Lions Club introduced Hanley's Old-Time Orchestra to Raymond. This group of musicians from Coaldale is the best in the South. Everybody in a very good crowd were well pleased with this band.

The free hotcakes were a big attraction for all and sundry—old and young. There were about thirty served at a time and the tables were full until a half hour after the dance closed. One of the biggest features was a challenge hotcake duel—or double duel. Ken Night undertook to eat more hotcakes than Rotary President Myron Holmes and Lion President Arledge Hill combined. Ken had the boys down twenty-four to twenty and got up to walk away. Myron and Arledge kept right on shovelling very slowly but very methodically. When they got up to thirteen apiece, Ken came back and took on four more. The Prexies then squeezed past him by splitting one between them to finish twenty-nine total to Ken's twenty-eight. Try two and a half dozen hotcakes with syrup and bacon some might after supper—just for exercise. Paul Moreland and Arledge Hill supplies the bacon, Ellison Milling Co. donated a big bag of "Vijor" for the Hotcakes and Leon Harker supplied the eggs. Joe McLean and Mrs. Joe were head cooks with Karl Wilde and a dozen more Lions and Lionesses working over a hot stove or in the dish pan to keep everybody happy.

They will all be back next Leo's Nite and if you were not there yet, miss the biggest and best yet. Deb Thompson and Joe McLean formed the committee that engineered the whole deal—good going boys—you did a very excellent job.

The Lions Club elected their slate of officers for the Executive of 1952-53. Rayo Woolf, Jack Evans and Melvin King acted as nominating committee and election officers. The election was carried fast and handled very efficiently. In a few minutes they had completed all of the offices and came up with the following excellent slate:

Joe McLean—President  
Cliff Nalder—First Vice President  
Hede Karaki—Second Vice Pres.  
Deb Thompson—Third Vice Pres.  
L. L. Harker—Secretary  
Jack Vanderhilt—Lion Tamer  
Bert Powelson—Tail Twister  
Renan Pack and Rayo Woolf—Directors.

Mr. and Mrs. Harold Stevens have their grandson Vaughn visiting them while his daddy and mommy, are attending Conference.

## Local Lad's Picture Used On Red Cross Folder

Mr. and Mrs. Evan Jensen were visitors in Calgary over the week-end to visit their son Wayne at the Red Cross Hospital. Wayne celebrated his third birthday on Saturday.

You may have noticed the little boy on the front of the Red Cross Folders distributed; that little boy is Wayne.

## Red Cross Nears Objective

Contributions are continuing to roll in to Raymond and district campaign offices according to Mrs. F. Hall, Chairman of the local Red Cross Campaign. Quota for this area is set at \$1750.00, and \$1530.45 of this quota has been reached so far. The Campaign will continue until the quota is reached.

With a Provincial quota of \$400,000 and Red Cross pledged to spend \$600,000 in Alberta in 1952, curtailment of Red Cross services would follow should the Provincial Campaign fail short. Included in the \$600,000 is the nationally-sponsored Blood Transfusion Service and a capital expenditure of \$92,000 for a new Clinic Building in Edmonton. At the present time, Red Cross offices in Edmonton are scattered throughout the City.

No phase of the Red Cross program can safely be allowed to lapse. The Blood Transfusion Service, work for crippled children, swimming and water safety, Junior Red Cross, disaster relief, civilian defence and work for civilian war refugees must continue.

"Because Red Cross services are so necessary to our well-being, we must reach our quota," said Mrs. Hall.

"If you have not already given your contribution to Red Cross, then please do so immediately to insure that the work of mercy never ends."

Mrs. Elsie Mitchell had visiting her over the week-end, Colleen from Calgary.

Mrs. Bill Nalder and baby son are visiting in Magrath this week.

## A. L. Mc Mullen, Raymond Pioneer Is Laid To Rest

Many friends and relatives paid their last respects to A. L. McMullen at the Funeral Services held Wednesday.

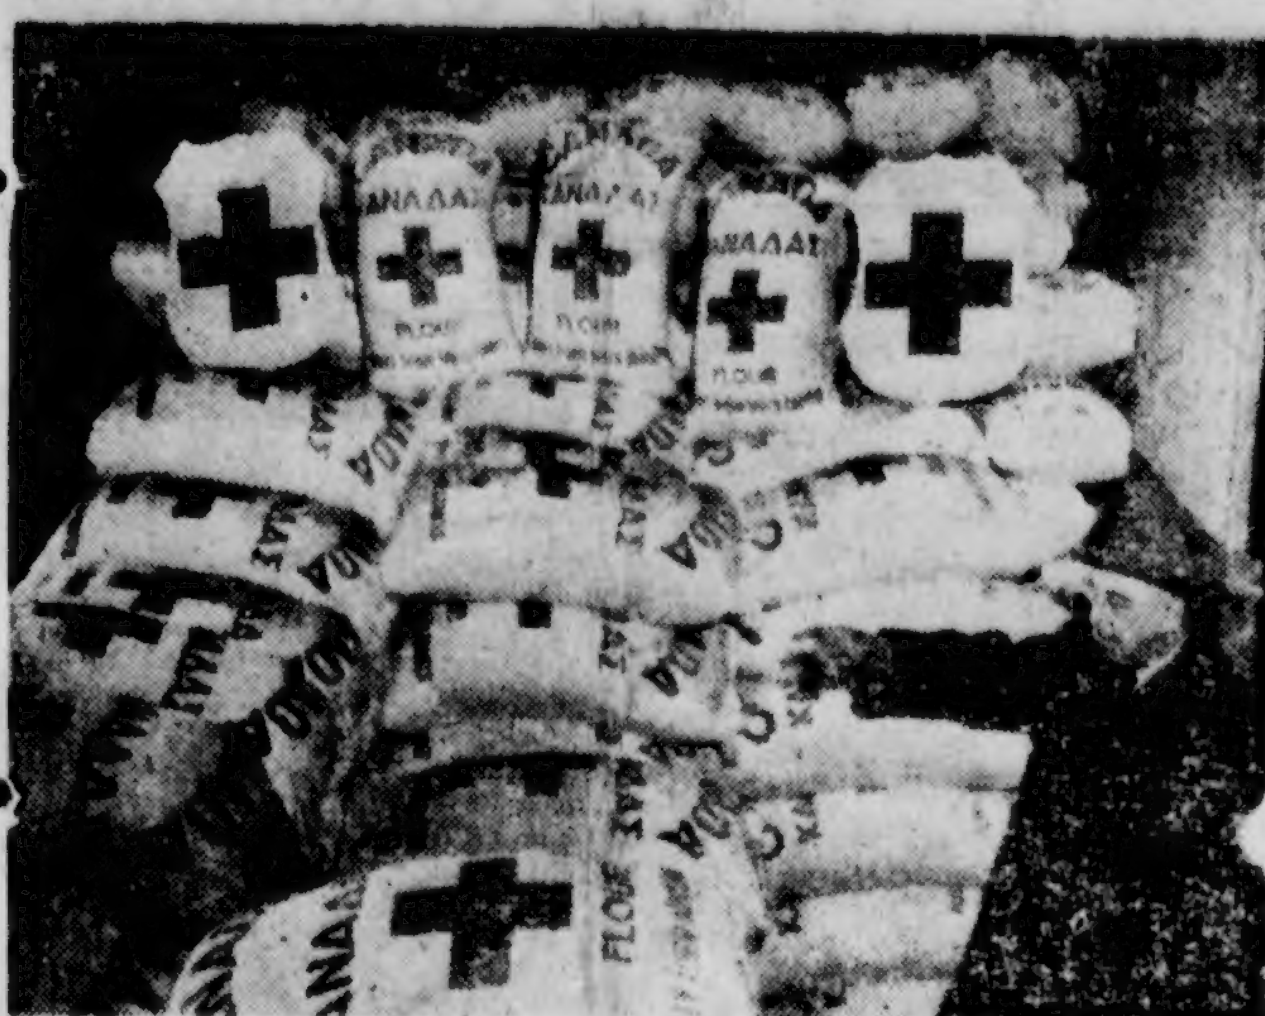

Bishop J. O. Hickn, who was a nephew of the deceased, conducted the services in the Stake House with the First Ward Choir supplying the music under the direction of Mrs. Eleanor Hudson with Mrs. Ethel Tolstrup at the organ.

After the choir number I Need Thee Every Hour, Bishop Asplund of Lethbridge offered the opening prayer, followed by a solo Going Home by Joe McLean. Pres. John Allen was the first speaker after which Ken Hicken rendered an organ solo, Oh My Father, followed by the talk by Pre. L. L. Palmer. Closing remarks were made by Bishop Hicken after which I Know That My Redeemer Lives, was sung by the choir and C. R. Wing offered the benediction.

Pallbearers were William Wilde, Andrew Walton, Don Rodeback, Henry Jensen, Lowell Duncombe and Junius Anderson. Graveside prayer was offered by Patriarch B. R. McMullin of Lethbridge and interment was in Temple Hill cemetery.

Mr. McMullen is survived by his wife Elizabeth and eight children: Mrs. Rowena Meldrum of Raymond, Mrs. Nina Bullock of Taber, Mrs. Doris Grey of Calgary, Mrs. Edith Fairbanks of California, Mrs. Pearl Haws of Ranier, Arthur of Edmonton Wayne of Washington and Dean of Lethbridge, all of whom were present with the exception of two daughters.

Mr. McMullen was born in Heber City, Utah in 1882 where he resided until 1902 when he came to Raymond, pioneering with the early settlers. Upon his retirement from the Sugar Factory Mr. and Mrs. McMullen moved to Lethbridge where he passed away after a lengthy illness.

Mr. F. E. Spooner, honorary treasurer of Alberta Division, Canadian Red Cross Society, inspected one of the railway cars being loaded with Red Cross flour for the starving citizens of Northern Greece. Standing up-

light are three bags of flour showing the Red Cross and the name 'Canada' in both English and modern Greek. Of the 296,315 one hundred pound bags of flour being sent to Greece, 114,296 were milled in Alberta.

Mr. and Mrs. Lincoln Wood were hosts at an informal gathering of friends at their home Thursday evening, with Mrs. Frank Hall guest of honor.

Pleasant conversation and a delicious luncheon of 'chicken in the rough' were both greatly enjoyed.

## It's Against The Law

It takes all kinds to make a world but the world would be a lot better place if it were rid of some of its poor sports.

Among those are the people who make sport out of shooting the antelope out on the Kirkaldy Ranch. Mel Lybbert informs us that recently some shooters—they cannot use the honored names of hunters and sportsmen—have taken it upon themselves to reduce the size of the herd at the Ranch. It is believed that they did their dirty work from an aircraft.

Shooting these animals is out of season and so against the law but to make matters worse the antelope were just left where they dropped.

Some people have a queer sense of sportsmanship and warning is given from four to six in the evening. In to these people that a watch is being kept and prosecution will follow any further shootings.

## RHS Comets To Play Host To Edmontonians

On April 16th, 17th and 18th the Raymond Opera House will be the scene of a clash between the Edmonton Victoria High School and the Raymond High School for the High School Basketball Championship of Alberta. This will be a two out of three series, the first game getting under way on Wednesday the 16th at 8 p.m.

The Raymond squad advanced into the finals by winning a two game series with Red Deer, which was played in Red Deer recently. Edmonton holds the north title.

These games will be the last basketball games of the season, during which Raymond has not lost a league game. To make the year a complete success they will need the public support. Lets give it to them by coming out to these games.

—Robert Gehmlich

A children's dance will be held on Saturday before the Cemetery Concert from four to six in the evening, in the Opera House. Tickets are ten cents and refreshments will be on sale.

## BOYS AND GIRLS WEEK

WHEREAS, the future depends, to a great extent, upon our service to youth today; and

WHEREAS, many communities throughout the world which recognize the need for focusing attention on youth's problems and achievements are joining together to observe "Boys and Girls Week" from April 26 to May 3; and

WHEREAS, each day of this week emphasizes a subject of importance to the development of youth of our community — Citizenship Day, April 26; Day in Church, April 27; Day in School, April 28; Family Day, April 29; Careers Day, April 30; Health and Safety Day, May 1; Day of International Understanding, May 2; and Day of Recreation, May 3; and

WHEREAS, the development of an active program for each of these days will give our boys and girls practical experience in "LEARNING TO SERVE";

NOW, THEREFORE, I, Frank R. Taylor, Mayor of the Town of Raymond, do hereby proclaim the week beginning Saturday, April 26, and ending Saturday, May 3, 1952, as "BOYS AND GIRLS WEEK".

In witness whereof, I have hereunto set my hand and caused the Seal of the Town of Raymond to be hereto affixed this 19th day of March, 1952.

(SEAL)

"FRANK R. TAYLOR"

Mayor

## Some Suggested Improvements

Mayor of the Town of Raymond,  
Dear Mr. Taylor,

You asked for some methods for improving our town, so I thought I would send you a few suggestions.

1. This next winter lets not have the snow piled up in the middle of the main street as it is not only unsightly, but dangerous.

2. This summer have reminders for the people that wrappers, papers and other debris have no place on our sidewalks and streets but should be put in the containers to be found at convenient parts of the street.

3. How about telling people that their ash piles have no place in the streets and that this should be carried to the back of their lots.

4. This year a clean up plan should be carried out to get everyone to clean up their yards and do away with unused rickety buildings etc. If we are going to get the new highway through our town this year we are apt to have more visitors and we wish to give them the best impression possible of our Home Town.

5. Have two policemen instead of one and let alternate shifts. The one day shift could help with general town work while the one on night duty could be in charge of the fire department in case of night fires.

6. If the town would purchase a two ton truck with hoist they would be able to haul gravel for road repairs which is needed on a lot of roads in this town. They also would be able to use it in the winter for hauling away snow in the winter as well as for numerous other jobs.

7. Remove the water hydrant which has been used to fill farm water tanks. It is an unsightly thing to have on one of our main streets.

8. What good are all the unused irrigation ditches, besides good holes to fall in to?

9. Isn't someone going to fix the town hall fence, it surely needs it.

10. How about the town buying a building to repair and keep their machinery in, instead of trying to get along on in those three old shacks in back of the old Bank of Montreal.

11. The junk yard just west of town is an awful eyesore. Can't something be done about it even if its just a board fence built around it.

12. Why not have a curfew for children under 14 years old to get them off the streets at night.

I'm not trying to run our town down because it really has its good points for we do have an efficient fire dept and water supply. I enjoy living in this town but I'm sure a few improvements would help us all to be prouder of our own Home Town.

Sincerely,  
L. J. McHew

Question of the Week: Who is John J. Anderson?

## Young Curlers Do Well At Magrath

Three High School Boys Rinks entered the One-Day Bonspiel that took place in Magrath Saturday.

The boys really outdid themselves in bringing home three prizes in the Second Event, and they were very lovely prizes.

First prize went to Sabey's Rink made up by Gerald Christensen, Farrel Meeks, and Allan Pack.

Second Prize to Dick McKean, Frazer Grant, Lynn Stone, Donald Attwood.

Third Prizes to Larry Dahl, Jack Holt, Billy Fairbanks, and Randall Meeks.

## Chips From The Scout Log

First Raymond Troop

### Previous Activities

Friday evening a few of the boys spent a few hours with the Scoutmaster passing Tests and learning knots and splices. Carl Richardson and Latoy Viola passed their First Class Tests and Birds and Angelo Viola, Gordon Tycheen, Max Holt, Rodney Kiddie and Gilbert Judd got their estimations. For this Test the boys have to calculate distances and heights with the aid of a 5' 6" Scout Staff.

Saturday afternoon Angelo Viola wrote his Trees and Birds Exam and Gordon Tycheen, Rodney Kiddie and Gilbert Judd made maps of journeys taken around town over routes specified by the Scoutmaster. To make sure that the Scouts do their best work, and to correct all mistakes made on the first map, these boys are now redoing the job.

Monday night found the group at the Scoutmasters home again, finishing the rope work they started Friday. Angelo Viola came a little before the rest to pass his First Class Signalling. The other boys came in very quietly and watched in awe as Angelo flashed his semaphore 20 letters a minute. As a result of the evening's knotting David Still emerged as top rope man and several others also gained proficiency at rope work. David was the only boy who mastered the double bowline on the bight.

Constable Anderson of the RCMP and also Scoutmaster of a Lethbridge Troop, carried out the inspection of the Troop, and then lectured for the rest of the evening on the highway code as it pertains to pedestrians, cyclists and vehicles, reporting accidents and traffic control. He couldn't show the boys his pistol because it was loaded, but he said he'd be back on the 29th to finish his lecture, including this time, parking of cars and traffic control as at Stampede's etc. He's also going to show them his gun. After the meeting Tuesday, the troop enjoyed ice cream cones which were served by the MIA.

### Proficiency Badges Earned

Pioneer—Max Holt  
Knutter—David Still, Angelo Viola  
Max Holt  
Horseman—David Still  
(continued on page three)

Mrs. George McGillvary returned Thursday from a five week vacation in the States. She visited an Aunt and Uncle, Mr. and Mrs. R. W. Shaw in Rupert, Idaho for three weeks and then on to Salt Lake for two weeks. While in Salt Lake she was the guest of Mr. and Mrs. Jim Cannon.

Ed Hancock who has been visiting in Salt Lake during the winter, returned with Mrs. McGillvary.

Among those attending Conference in Salt Lake are Mr. and Mrs. Rulon Dahl, Mr. and Mrs. Tommy Rudd, and Mrs. Harry Fairbanks.

Miss Lorraine Shaw visited her parents Mr. and Mrs. Fank Shaw over the week-end.

The Fourth Ward Choir under the direction of Gerry Gibb returned the call of the Magrath Second Ward Choir, Sunday night.

## The Raymond Recorder

An Independent Weekly published Thursdays at Raymond, Alberta  
Max Hamilton, Editor and Manager  
Subscription rate in Canada \$2.50 a year. Elsewhere \$3.00 a year.  
Payable in Advance  
Authorized as second class mail, Post Office Department, Ottawa  
Advertising rates on application.  
Serving one of Canada's richest irrigated mixed farming districts.

We think that the following taken from CBC Times will be of interest to the people here, as Robert McMullen is the son of Mr. and Mrs. Wes McMullen.

'Linger Awhile' heard over CBC at 9:00 p.m. Orchestra conducted by Robert McMullen; Jerry Forbes, vocalist; Fred Diehl, producer. From Edmonton.

Orchestra: I'll Follow My Secret Heart; Moon Scape; medley—Whispering, Honey and I'll Get By; Ava Maria; Jerry Forbes: I Don't Know Why; I Feel a Song Coming On; Everything I Have Is Yours; There Goes My Heart.

In addition to conducting and arranging, Robert McMullen is also a composer of popular as well as serious music. 'Moon Scape' which the orchestra will play Tuesday night and which has been heard once before in this series, is one of his compositions. Another one 'Little Chinook' written this week.

in collaboration with Producer Diehl, was heard a few months ago. In 1948 McMullen's 'Rocky Mountain Suite' was premiered by the Toronto Symphony Orchestra under the direction of Sir Ernest MacMillan.

During the war McMullen joined the RCAF as a bandsman and while at No. 3 Manning Depot in Edmonton he shared in the direction of the Station dance band which toured England, France, Germany Belgium and Holland.

'Linger Awhile' is heard every Monday at nine.

'Barabbas', the synopsis of which was given in last week's Library Column, will be heard over CBC Wednesday Night next week at 9:30 over CBX.

Mrs. Rex Meeks accompanied Mr. and Mrs. Arch Terry to Conference.

### Snaps and Scraps

A staff, two wings at its top, with two serpents entwining is the symbol or insignia of the Medical Corps. The same symbol is found in the ancient temples of the Far East, among the hieroglyphics of Egypt, on the walls of the temples of India. The Hebrews and the Babylonians were known users of the serpent for healing.

Alice Tisdale Hobart, makes use of the same symbol for her new book 'The Serpent-Wreathed Staff' which is the story of two brothers Alan and Samuel Towne, both orthopedic surgeons with different personalities.

Readers who read 'Oil For The Lamps of China' and 'Their Own Country' will find in this new book by the same author, the intense conflict which Mrs. Hobart treats so dramatically in her novels of character, between individuals among the same family with the same blood in their veins.

The Rediscovery of Morals by Henry C. Link.

Time To Remember by Lloyd C. Douglas. An autobiography.

Tales of Two Borders—Short stories by Walter O'Meara who was born in the voyageur country of Ontario. He gave readers 'The Grand Portage'.

Through Charley's Door by Emily Kimbrough. Charley's Door was the fashionable door or entrance to Marshall Field & Co in Chicago where the author worked in the Advertising Department.

Grace Livingston Hill has more books in print than any other author living or dead. This was made known when H. W. Wilson printed their 6th Edition of their Catalogue of Reprints. The catalogue has sixty-four titles listed for Grace Hill. Zane Grey is in second place with thirty-six and Charles Dickens fourth with thirty-three.

PROPER CARE OF TIRES  
INCREASES USEFUL LIFE

On many farms these days there is an appreciable investment in rubber tires. While it is true that these save wear and tear on the machine by absorbing shocks, the rate at which the tires depreciate is much greater than that of steel or wooden wheels. Proper care of tires can certainly increase their useful life. Rubber tires on all farm equipment should be kept properly inflated when operating.

If rubber tired machinery is left idle for any extended length of time it should be put on blocks, advises C. A. Cheshire, Extension Agricultural Engineer, Alberta Department of Agriculture. Next best to blocking up the machine is to increase the pressure in the tires of the idle machine by about 10 pounds. Wherever possible the wheels should be removed and stored in a dark, dry place. If it is not feasible to remove the wheels they should at least be covered. This shading from the light will help greatly in extending tire life.

THOUSANDS OWN  
STORAGE  
TANKS  
THEY'RE  
FUEL-WISE

## A STORAGE TANK PAYS 4 WAYS

1. **GAINS TIME**—You're never stuck for fuel. There's always enough to do a good day's work in those busy seasons when every hour counts. Gives you a handy supply in any season. Filling is no chore. Gravity flow is quicker than pumping, too.
2. **KEEPS FUEL CLEAN**—Helps prevent stoppages and costly delays in the field due to fuel line troubles in your tractor. You can't beat a storage tank for keeping diesel fuel clean.
3. **PREVENTS WASTE**—Fuel is easily spilled or left in the bottom of the barrel whether you pour from a barrel or use a pump. A storage tank practically eliminates this waste.
4. **LESSENS FIRE HAZARD**—Gasoline in any farm building is dangerous. A storage tank located at the right distance from buildings complies with fire insurance regulations.

# Farm Value Goes Up!

"SAY NEIGHBOR!  
How much did  
it cost you to  
get your farm  
electrified?"

"WELL...the way I look  
at it, it didn't cost me  
a red cent!

I look on it as an investment  
...like a new barn...or a new  
house. It increased the value of  
my farm by more than double  
the amount I invested in line  
construction costs and building  
wiring costs...that's what the  
real estate man tells me."

Here is another point . . .

now that I know how much Reddy can do  
for me by—increasing production, saving time  
and labour, and helping my wife in the home—I  
wouldn't be without the power if it cost me five  
times as much as it did.

# FOR PARENTS ONLY

By Nancy Cleaver

"I want a bike, Mum! If I earn half the cost will Dad help me out?"

"Maybe... but we don't want you to be in an accident... a bicycle can't win in a head-on collision with a car!"

"I'll be careful! Mothers are always fussing... All the fellows in our gang have bikes."

Bicycles do cost money the same as any other well-made complex vehicle—Every year shows a growing number of owners. Did you ever pass a school just after it was let out and meet the big "fleet" of cyclists, boys and girls? A youngster without a bike is certainly "out of things!"

At the same time a parent has reason to be concerned about the possibility of their youngster being in an accident. A young cyclist can be seriously hurt—or even killed—in a few split seconds in a serious mix-up.

How do most accidents occur? In a few cases the poor conditions of the road was a contributing factor. There may be so much sand that the brakes if suddenly applied, will cause the wheels to skid. The surface may have had a large unexpected hole, rut or bump, or the shoulder of the road may have been weakened or partly washed away by heavy rains. Occasionally a freezing rain had made cycling on good pavement very hazardous or a heavy mist had made the visibility very low.

Sometimes the motorist or truck driver who crashed into the bicycle was almost completely responsible for an accident. But often the driver was unaware of a boy or girl on a bicycle because he did not see the white on the mud guard of the back wheel or the tail light.

Perhaps it was dusk and the cyclist was in dark clothes with no light garment which could easily be seen. Maybe it was completely dark and no headlight or flashlight was attached to the frame of the bicycle. Another condition might have been that the horn or warning bell of the bicycle was out of order. When the motorist should have heard a warning sound from the cyclist, there was no signal given!

If a boy or girl wants to own a bicycle, in most families it is a good plan for them not only to help pay for such a major investment, but also be responsible for its care and for obeying sensible safety rules. If they are too young to ride carefully—they are too young to ride!

The law holds parents responsible for the actions of their children, so it behooves mothers and fathers to know the traffic rules and make sure

their youngsters are familiar with them.

Bicycles should keep to the extreme right of the road, out of the way of other vehicles. When meeting traffic it is passed on the right, when overtaking traffic it is passed on the left. In a town or city the careful bicycle rider stops near the curb. At an intersection, traffic coming from the right has the right-of-way. When a cyclist wants to turn left, he approaches the intersection as near to the centre of the highway as he can, and then makes the left turn as close to the intersection centre line as possible.

Stop signals must be obeyed and also traffic officers directions. The cyclist must raise one arm when stopping or slowing down to turn to show in which direction he is going. He should use his horn or bell as a warning signal only when necessary. It is not a "nuisance device!"

Each cyclist must get along "on his own steam." Hanging on to a moving truck or car is against the law and very dangerous. To "cut in" in front of a moving car is also asking for trouble; and is never permissible.

Quite a few accidents occur when several cyclists are together. They get talking and forget to keep their eyes and ears open for cars or trucks or pedestrians. Sometimes they ride three or four or five abreast. Single file is the rule for bicycles in heavy or medium traffic and a motorist often has difficulty in passing more than two bicycles riding alongside each other.

Adolescents sometimes start "clowning" or showing how smart they can be riding without their hands on the handle bars or their feet on the pedals. The highway is no place for stunt riding. Wobbling all over the road is a silly and dangerous practice. Keep

in a straight line!

Bicycles are ridden in countries all around the globe—Tens of thousands of boys and girls and adults have fun on them and use them to ride to school or work or earn money on carrier jobs. Cycling is the best of exercise in the fresh air. Only a small percentage of bicycle owners get into a serious crash—obey the traffic rules and avoid the "accident class!"

## CHIPS FROM THE SCOUT LOG (continued from page one)

### Of Interest

Roger Kirkham has been issued a permanent transfer to the Second Raymond Troop. Roger is a Second Class Scout and was the Second in the Beaver Patrol. Jim Walker has replaced Kirkham as Second in the Patrol.

Reports are that the Rank of King's Scout has been changed to Queen's Scout.

Field Commissioner Len Ankers conducted a Training Course for Scouters and Group Committee members last Friday and Saturday. A successful course was held with the few men who attended.

### Future Activities

The Camporee, May 24th for the eight Troops of the Chinook District will be held in Clarence Elberts field in the Pot Hole Coulee.

Patrol Leaders Bronze Arrow Head Training course will be held in Raymond the 18th and 19th of April under the direction of the District Commissioners.

The Patrol Leaders Silver Arrow Head course is to be held in Waterton July 3rd to 10th under the supervision of Field Commissioner Len Ankers. It will cost each boy attending \$12.00, which amounts to 40¢ per meal.

The LesAmi Club met at the home of Mrs. Nora Stone Wednesday evening for their regular get-together. A very enjoyable time was spent visiting and doing handwork after which a delicious plate lunch was served by Mrs. Stone and the assistant hostess Mrs. Norma Smith.

Hazel Fawns was a special guest.

## For your own sake give to conquer cancer!

There's one chance in five that you will have cancer. A fifty-fifty chance that someone you love will need help in fighting cancer.

Your dime, your dollar, what ever you give helps change these odds in your favor... helps pay for more research on the cause and cure of cancer. And your contribution helps us furnish hospitals, doctors and equipment when they're needed.

Protect yourself and your family.

**ALBERTA NEEDS \$175,000 TO FIGHT CANCER...**

Give generously when the local canvasser calls or mail in your contribution.

Mail this coupon with your contribution to "CANCER"...  
513-8th Avenue West, Calgary.

## New Radio Receiving Licenses Available

New Radio Receiving Licenses Radio Dealers, Radio Service, are obtainable from Post Offices, men, certain Banks and, in certain districts, from house-to-house canvassers.

Where not available locally, Radio Receiving Licenses may be obtained from the Controller

of Telecommunications, Department of Transport, Ottawa.

A separate License is required by each tenant of a room or flat within a private home who operates a radio. A separate License is required for each radio installed in a motor vehicle.

DEPARTMENT OF TRANSPORT
